REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest a catalytic dewaxing process as claimed in which in oil containing more than 1000 ppmw of sulfur is dewaxed by contacting the oil with a catalyst comprising a group VIII metal, dealuminated zeolite, and a binder that is essentially free of alumina. The Banta reference does not disclose the use of a dealuminated zeolite catalyst and the Moureaux reference does not disclose the use of a dealuminated catalyst with feeds containing more than 1000 ppmw sulfur.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
